

Safety

Powered industrial trucks are designed and manufactured in accordance with the requirements of the OSHA Safety and Health Standards (29 CFR 1910.178) and the recommendations of the Industrial Truck Standards Development Foundation/American National Standards Institute (ITSDF/ANSI) B56.1.

All parts of any such industrial truck requiring replacement shall be replaced only by parts equivalent as to safety with those used in the original design.

OSHA Safety and Health Standards (q)(5)

Maintenance and Rebuild Practices:

Para. 6.2.17 : Care shall be taken to ensure that all replacement parts, including tires, are interchangeable with the original parts and of a quality at least equal to that provided in the original equipment. Parts, including tires, are to be installed per manufacturer's procedures.

ITSDF/ANSI

⚠ WARNING: Use only genuine Taylor replacement parts. Lesser quality parts may fail, resulting in property damage, personal injury, or death.

Safety Check, 2nd edition, p. 59

⚠ WARNING: Use only service replacement parts recommended by the manufacturer.

Safety Check, 2nd edition, p. 73

⚠ WARNING: Very few "extras" exist on a workplace forklift. Every item, a lift chain, a cotter pin on an axle spindle, a door latch, or a hood lock, is an important "safety" item. Even the smallest damaged or broken item can result in an injury somewhere down the line.

Safety Check, 2nd edition, p. 73

Genuine **TAYLOR**® Dealers understand the need for Genuine **TAYLOR**® Parts.

Genuine Parts

With a complete fabrication shop and warehouse serving as the master distribution center for **TAYLOR**® service parts, the Operations and Distribution Center of Sudden Service, Inc.® is located at 103 Industrial Park Road in Philadelphia, Mississippi.

The master parts depot ships **TAYLOR**® parts nationwide and is a key component in the Sudden Service, Inc.® dealer network.

Trusted Engineering

*With Quality **TAYLOR**® Replacement Parts you won't have to wonder if they will fit or if they will last...*

TAYLOR® *makes sure they will.*

Can I trust Genuine **TAYLOR® Parts to last?**
Our engineers spend countless hours designing, inspecting, and testing every part we place on our machines to insure reliability and durability.

How do I know they are right?
No matter if it is a major component or a simple bolt, every part is carefully engineered for safety and reliability.

What is the **TAYLOR® track record?**
80 years of dependability, reliability, and durability has taught us how to do it right.
